SUMMARY

Junior Software Developer with a Bachelor's degree in Computer and Information Sciences and hands-on internship experience building full-stack applications. Strong foundational knowledge in object-oriented programming, data structures, and relational databases, with practical experience across Java, C#, React, and SQL. Proven track record of contributing to Agile development teams, managing data flows, and implementing scalable code workflows.

EXPERIENCE

It ansvarig 05/2024 - Present
TechCare ab

- **Data & Mjukvara:** Ansvarig för datalagringslösningar, backup-rutiner samt installation och konfigurerings av operativsystem och programvara.
- **Hårdvara:** Felsökning, komponentbyten och teknisk service på mobila enheter och datorer.
- **Teknisk drift:** Fungerar som butikens primära tekniska resurs för att säkerställa att system och enheter fungerar felfritt.

Software Developer (React.js / Full Stack) 01/2023 - 06/2023
DunderDog AB ↗

- **Developed and optimized** frontend components using React.js and modern JavaScript, ensuring seamless integration with client-facing backend services.
- **Engineered data pipelines** and managed frontend-backend communication, utilizing RESTful API concepts and asynchronous data flow.
- **Designed and implemented** responsive, data-driven user interfaces and performance dashboards for enterprise application tracking.
- **Optimized database queries** and modeled relational data schemas to ensure efficient data storage, retrieval, and system reliability.
- **Collaborated actively** within an Agile Scrum framework, contributing to sprint planning, design iterations, daily stand-ups, and peer code reviews to maintain high codebase quality.
- **Refactored and maintained** legacy codebases under the mentorship of senior engineers, adhering to clean code and robust software engineering principles.

EDUCATION

Computer and Information Sciences 01/2021 - 06/2025
Örebro universitet - Bachelor's degree

- Focus on systems development, object-oriented programming, and database systems
- Coursework in Java, C#, SQL, web development (HTML, CSS, JavaScript)
- Experience working in Agile-based academic projects, including team collaboration and Scrum roles
